

What is claimed is:

1. A bag-packed three-dimensional (3D) decorative sticker set, comprising:

5

a packing bag defining a receiving space and adapted to hang on a display rack or rail, said packing bag including a sealed upper edge and an open lower edge, and an adhesive-applied flap downward extended from said open lower edge; said flap being normally folded upward to close an opening at said open lower edge and adapted to turn downward again to expose said opening;

10

15

a substrate having a size suitable for positioning in said packing bag, and a front allowing an adhesive-applied surface to repeatedly detachably attached thereto; and

20

a set of individual 3D decorative stickers together creating a specific view, said 3D decorative stickers being preliminarily detachably adhered at an adhesive-applied backside to the front of said substrate, so as to be positioned into or removed from said packing bag along with said substrate.

2. The bag-packed 3D decorative sticker set as claimed
in claim 1, wherein said substrate comprises an
opaque thin sheet.
- 5 3. The bag-packed 3D decorative sticker set as claimed
in claim 1, wherein said substrate comprises a
transparent thin sheet.
4. The bag-packed 3D decorative sticker set as claimed
10 in claim 1, wherein said substrate has an opaque
paper sheet laminated to a backside thereof for
showing information about using said 3D decorative
sticker set, and said opaque paper sheet having a
size close to that of said substrate.
- 15 5. The bag-packed 3D decorative sticker set as claimed
in claim 1, wherein said set of 3D decorative stickers
are formed by overlapping different constituent
parts.
- 20 6. The bag-packed 3D decorative sticker set as claimed
in claim 1, wherein said set of 3D decorative stickers
are formed by curling a plurality of long paper or
plastic strips having predetermined widths.
- 25 7. The bag-packed 3D decorative sticker set as claimed

in claim 1, wherein said set of 3D decorative stickers are formed from a plurality of serially connected and/or stacked beads.

5 8. The bag-packed 3D decorative sticker set as claimed in claim 1, wherein said specific view created by said set of 3D decorative stickers includes flowering plants.

10 9. The bag-packed 3D decorative sticker set as claimed in claim 1, wherein said specific view created by said set of 3D decorative stickers includes woman's personal items.

15 10. The bag-packed 3D decorative sticker set as claimed in claim 1, wherein said specific view created by said set of 3D decorative stickers includes things related to fairy tales.

20 11. The bag-packed 3D decorative sticker set as claimed in claim 10, wherein said things related to fairy tales include doll costumes, cute animals, etc.

12. A bag-packed three-dimensional decorative sticker
25 set, comprising:

- a packing bag defining a receiving space and adapted to hang on a display rack or rail, said packing bag including a sealed upper edge and an open lower edge, and an adhesive-applied flap downward extended from said open lower edge; said flap being normally folded upward to close an opening at said open lower edge and adapted to turn downward again to expose said opening;
- a substrate having a size suitable for positioning in said packing bag, and a front allowing an adhesive-applied surface to repeatedly detachably attached thereto; and
- a set of individual 3D decorative stickers showing costumes and animals to create a specific fairy-tale view, said set of individual 3D decorative stickers being applied at a backside with adhesive adapted to preliminarily adhere to the front of said substrate, so as to be positioned into said packing bag along with said substrate.
13. The bag-packed 3D decorative sticker set as claimed in claim 12, wherein said substrate comprises an opaque thin sheet.

14. The bag-packed 3D decorative sticker set as claimed
in claim 12, wherein said substrate has an opaque
paper sheet laminated to a backside thereof for
showing information about using said 3D decorative
5 sticker set, and said opaque paper sheet having a
size close to that of said substrate.
15. The bag-packed 3D decorative sticker set as claimed
in claim 12, wherein said set of 3D decorative
10 stickers are formed by overlapping different
constituent parts.
16. The bag-packed 3D decorative sticker set as claimed
in claim 12, wherein said set of 3D decorative
15 stickers are formed by curling a plurality of long
paper or plastic strips having predetermined
widths.
17. The bag-packed 3D decorative sticker set as claimed
20 in claim 12, wherein said set of 3D decorative
stickers are formed from a plurality of serially
connected and/or stacked beads.
